Biography/History of

Scope and Contents of the Records/Papers/Collection

[Make a note describing the general nature of the materials, indicating their general contents (the range of subjects), their scope (the depth to which those subjects are covered), and any genre of the materials.]

Organization of the Records/Papers/Collection

[Descendant components may be described tersely within this section. In other words, list the series and subseries in this collection.]

Related Material

[This section describes other collections that have a common provenance, creator or subject matter. Sometimes it is used to describe the fact that parts of a collection have been transferred to other custodial units with the organization, which are listed in the Separated Materials sub-section below. For example, photographs have been transferred to the photo collection or books have been transferred to the general collection.]

Separated Materials

[List any materials here that have been separated out from the main body of records, including the call number.]

Other Finding Aids

[This would be for additional guides to the same collection. These other access tools would describe all or parts of the collection. For example, there might be a published edition of the inventory or the materials may have come to the repository with some sort of inventory prepared by the creator. File plans are formal examples of such finding aids (with a separate element all their own) that sometimes accompany organizational needs.]

Detailed Description of the Records/Papers/Collection
--

The following section contains a detailed listing of the materials in the collection.

Box #	Folder #.	Title / Description
1		Personal Correspondence
	1	Letters to Louise from Edwin, 1908
